TESTING FOR HIV:

(410 ILCS 305/9) (from Ch. 111 1/2, par. 7309)

Sec. 9. No person may disclose or be compelled to disclose the identity of any person upon whom a test is performed, or the results of such a test in a manner which permits identification of the subject of the test, except to the following persons:

(a) The subject of the test or the subject's legally authorized representative. A physician may notify the spouse of the test subject, if the test result is positive and has been confirmed pursuant to rules adopted by the Department, provided that the physician has first sought unsuccessfully to persuade the patient to notify the spouse or that, a reasonable time after the patient has agreed to make the notification, the physician has reason to believe that the patient has not provided the notification. This paragraph shall not create a duty or obligation under which a physician must notify the spouse of the test results, nor shall such duty or obligation be implied. No civil liability or criminal sanction under this Act shall be imposed for any disclosure or non-disclosure of a test result to a spouse by a physician acting in good faith under this paragraph. For the purpose of any proceedings, civil or criminal, the good faith of any physician acting under this paragraph shall be presumed.

(b) Any person designated in a legally effective release of the test results executed by the subject of the test or the subject's legally authorized representative.

(c) An authorized agent or employee of a health facility or health care provider if the health facility or health care provider itself is authorized to obtain the test results, the agent or employee provides patient care or handles or processes specimens of body fluids or tissues, and the agent or employee has a need to know such information.

(d) The Department and local health authorities serving a population of over 1,000,000 residents or other local health authorities as designated by the Department, in accordance with rules for reporting and controlling the spread of disease, as otherwise provided by State law. The Department, local health authorities, and authorized representatives shall not disclose information and records held by them relating to known or suspected cases of AIDS or HIV infection, publicly or in any action of any kind in any court or before any tribunal, board, or agency. AIDS and HIV infection data shall be protected from disclosure in accordance with the provisions of Sections 8-2101 through 8-2105 of the Code of Civil Procedure.

(e) A health facility or health care provider which procures, processes, distributes or uses: (i) a human body part from a deceased person with respect to medical information regarding that person; or (ii) semen provided prior to the effective date of this Act for the purpose of artificial insemination.

(f) Health facility staff committees for the purposes of conducting program monitoring, program evaluation or service reviews.

(g) (Blank).

(h) Any health care provider or employee of a health facility, and any firefighter or EMT-A, EMT-P, or EMT-I, involved in an accidental direct skin or mucous membrane contact with the blood or bodily fluids of an individual which is of a nature that may transmit HIV, as determined by a physician in his medical judgment.

(i) Any law enforcement officer, as defined in subsection (c) of Section 7, involved in the line of duty in a direct skin or mucous membrane contact with the blood or bodily fluids of an individual which is of a nature that may transmit HIV, as determined by a physician in his medical judgment.

(j) A temporary caretaker of a child taken into temporary protective custody by the Department of Children and Family Services pursuant to Section 5 of the Abused and Neglected Child Reporting Act, as now or hereafter amended.

(k) In the case of a minor under 18 years of age whose test result is positive and has been confirmed pursuant to rules adopted by the Department, the health care provider who ordered the test shall make a reasonable effort to notify the minor's parent or legal guardian if, in the professional judgement of the health care provider, notification would be in the best interest of the child and the health care provider has first sought unsuccessfully to persuade the minor to notify the parent or legal guardian or a reasonable time after the minor has agreed to notify the parent or legal guardian, the health care provider has reason to believe that the minor has not made the notification. This subsection shall not create a duty or obligation under which a health care provider must notify the minor's parent or legal guardian of the test results, nor
shall a duty or obligation be implied. No civil liability or criminal sanction under this Act shall be imposed for any notification or non-notification of a minor's test result by a health care provider acting in good faith under this subsection. For the purpose of any proceeding, civil or criminal, the good faith of any health care provider acting under this subsection shall be presumed.
